**Initial Assessment -
to be completed for
Initial Treatment
Requests Only
(please check all that
apply)**

☐ All assessments pertaining to diagnosis, functional behavior, and skills have been completed by a qualified treating health care professional whose scope of practice includes treatment of autism spectrum disorder.

For each domain, please provide the name of the assessment tool used for evaluation, the tool's average score and Standard Deviation limits, and the patient's score.

Domain	Name of assessment tool used for evaluation	Assessment tool average score and standard deviation limits	Patient's score
Diagnosis for autism spectrum disorder			
Severity of autism symptoms			
Functional behavioral assessment			

Describe how the symptoms of autism spectrum disorder impact the member's function at school, home, and/or community environments: _____

Describe symptoms related to autism spectrum disorder that pose harm to the member and/or others: _____

Does the treating health care professional expect that the individual's behavior and skills will improve to a clinically meaningful extent, in at least two settings (i.e. home, community, school, etc.) with ABT provided by, or supervised by, a licensed ABT provider? ☐ Yes ☐ No

List the settings where improvement is expected as a result of ABT provided by, or supervised by, a licensed ABA provider? _____

Do the recipient's caregivers commit to participate in the goals of the treatment plan?
..... ☐ Yes ☐ No

Is the recipient medically stable and does not require 24-hour medical/nursing monitoring or procedures provided in a hospital level of care? ☐ Yes ☐ No

Patient Name	Blue Cross NC Patient ID number	Patient Date of Birth

	<p>Does the treatment plan have elements of behaviorally specific, quantifiable goals, that relate to developmental deficits or behaviors that are important for successful participation in everyday activities, such as home, school or the community or pose significant risk of harm to the recipient or others? <input type="checkbox"/> Yes <input type="checkbox"/> No</p>							
	<p>Please provide information on number of ABT service hours per day and location of services.</p>							
	Location	Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
	H = Home O = Office C=Community							
	How many hours?							
Treatment Plan (to be completed with initial and extension requests):	<p>List/Describe the following:</p>							
	<p>Behaviorally specific, quantifiable goals, that relate to developmental deficits or behaviors that are important for successful participation in everyday activities, such as home, school or the community or pose a significant risk of harm to the recipient or others: _____</p>							
	<p>_____</p>							
	<p>_____</p>							
	<p>Objective, observable and quantifiable metrics are utilized to measure change toward the specific goal behaviors: _____</p>							
	<p>_____</p>							
	<p>_____</p>							
	<p>Documentation that adjunctive treatments (e.g., psychotherapy, group social skills training, medication services, educational services) have been considered for inclusion in the treatment plan, with the rationale for exclusion: _____</p>							
	<p>_____</p>							
	<p>_____</p>							

Patient Name	Blue Cross NC Patient ID number	Patient Date of Birth

Continued Care – for EXTENSION of Services ONLY:	Please describe improvements from baseline in skill deficits and problematic behaviors using objective, observable and quantifiable metrics:																								
	<table border="1"> <thead> <tr> <th>Skill deficit and/or problematic behavior</th> <th>Name of assessment tool used for evaluation</th> <th>Assessment tool average score and standard deviation limits</th> <th>Patient's baseline score</th> <th>Patient's follow-up score after ABT.</th> </tr> </thead> <tbody> <tr><td> </td><td> </td><td> </td><td> </td><td> </td></tr> <tr><td> </td><td> </td><td> </td><td> </td><td> </td></tr> <tr><td> </td><td> </td><td> </td><td> </td><td> </td></tr> </tbody> </table>	Skill deficit and/or problematic behavior	Name of assessment tool used for evaluation	Assessment tool average score and standard deviation limits	Patient's baseline score	Patient's follow-up score after ABT.																			
	Skill deficit and/or problematic behavior	Name of assessment tool used for evaluation	Assessment tool average score and standard deviation limits	Patient's baseline score	Patient's follow-up score after ABT.																				
	Describe how the symptoms of autism spectrum disorder impact the member's function at school, home, and/or community environments: _____ _____ _____																								
	Describe symptoms related to autism spectrum disorder that pose harm to the member and/or others: _____ _____ _____																								
	Do the recipient's caregivers demonstrate continued commitment to participation in the recipient's treatment plan and demonstrate the ability to apply those skills in naturalized settings? <input type="checkbox"/> Yes <input type="checkbox"/> No																								
	Can the gains that have made toward development norms and behavioral goals be maintained if care is reduced? <input type="checkbox"/> Yes <input type="checkbox"/> No																								
Are behavioral issues exacerbated by the treatment process? <input type="checkbox"/> Yes <input type="checkbox"/> No																									
Does the recipient maintain the required cognitive capacity to benefit from the care provided and to retain and generalize treatment gains? <input type="checkbox"/> Yes <input type="checkbox"/> No																									
What is the frequency of evaluation and documentation of gains made toward behavioral goals? _____ _____ _____
