COVID-19 Vaccines Covered Through 2026

Healthy Blue + Medicare will continue to cover COVID-19 vaccines through 2025 and 2026, with no out-of-pocket costs to our members.

As part of standard preventive care benefits, COVID-19 vaccines are covered for all members older than 6 months of age, consistent with clinical evidence and consensus recommendations from major medical organizations.

Members are encouraged to contact their primary care provider or local pharmacist to confirm vaccine availability and determine the vaccine schedule most appropriate for their individual health needs.

We continue to closely monitor federal and state policy developments and will provide updates as appropriate.

For additional support, visit the Contact Us section of our provider website for the appropriate contact.
