Disclaimer

These reimbursement policies serve as a guide to assist you in accurate claims submissions and to outline the basis for reimbursement if the service is covered by a member's Blue Cross and Blue Shield of North Carolina (Blue Cross NC) Medicare Advantage benefit plan if the service is covered for Healthy Blue + MedicareSM (HMO-POS D-SNP). The determination that a service, procedure, item, etc. is covered under a member's benefit plan is not a determination that you will be reimbursed. Services must meet authorization and medical necessity guidelines appropriate to the procedure and diagnosis as well as to the member's state of residence.

You must follow proper billing and submission guidelines. You are required to use industry standard, compliant codes on all claim submissions. Services should be billed with Current Procedure Terminology[®] (CPT) codes, Healthcare Common Procedure Coding System (HCPCS) codes, and/or revenue codes. These codes denote the services and/or procedures performed and, when billed, must be fully supported in the medical record and/or office notes. Unless otherwise noted within the policy, our reimbursement policies apply to both participating and non-participating professional providers and facilities.

If appropriate coding/billing guidelines or current reimbursement policies are not followed, Blue Cross NC Medicare Advantage may:

- Reject or deny the claim.
- Recover and/or recoup claim payment.
- Adjust the reimbursement to reflect the appropriate services and/or procedures performed.

Policy

Blue Cross NC Medicare Advantage allows reimbursement for claims billed with modifier 78 unless provider, federal, or CMS contracts and/or requirements indicate otherwise when the following criteria is met:

- The return to the operating or procedure room is unplanned.
- The procedure appended with modifier 78 is:
 - The appropriate surgical code for the procedure performed.
 - Performed by the same physician who provided the initial procedure.
 - Related to the initial procedure.
 - Performed during the postoperative period of the initial procedure.

Reimbursement is based on 70% of the fee schedule or contracted/negotiated rate of the surgical procedure code when the modifier is valid for the service performed. Reimbursement is based on the surgical procedure only, not including preoperative or postoperative care. Procedures rendered during the postoperative period and not billed with modifier 78 are normally denied as included in the global surgical package.

When an assistant surgeon is used during the global period in the same operative session, assistant surgeon rules apply.

Non-reimbursable

Blue Cross NC Medicare Advantage does not allow reimbursement for modifier 78 billed in the following circumstances including, but not limited to:

- With nonsurgical codes.
- With codes denoting *subsequent*, *related*, or *redo* in the description
