Specialty Pharmacy Precertification List Expansion — Key Updates

Effective for dates of service on and after October 1, 2025, the specialty Medicare Part B drug listed in the table below will be included in our precertification review process.

Federal and state laws, along with state contract language and CMS guidelines — including definitions and specific contract provisions or exclusions — take priority over these precertification rules and must be considered first when determining coverage.

Note: Ensuring compliance with the new requirements will help facilitate claim approval.

HCPCS or CPT® Codes	Medicare Part B Drugs
J3590	Alhemo (concizumab-mtci)
C9399, J9999	Datroway (datopotamab deruxtecan-dlnk)
C9399, J9999	Grafapex (treosulfan)
C9399, J9999	Opdivo Qvantig (nivolumab hyaluronidase-nvhy)
