### Description of Procedure or Service

---

Blue Cross Blue Shield of North Carolina (BCBSNC) provides information to practitioners regarding claims pricing and adjudication processes to help them understand reimbursement for covered services provided to eligible BCBSNC members.

Since the number, setting, scope and type of service provided to members varies, it is impractical to document the process of adjudication of each claim submitted. Also, reimbursement is impacted by various statutes and regulatory requirements, professional contracts, and member benefits.

BCBSNC utilizes the guiding principles outlined below for claims processing and adjudication. These principles may help practitioners anticipate and understand the likely outcome of claims submissions.

BCBSNC claims reimbursement is determined by employer group contracts, member benefits, provider contracts and fee schedules, and statutory and regulatory requirements.

The claims pricing and adjudication process includes commercial BCBSNC primary claims processing systems, industry-standard claims adjudication software, individual review of claims and/or medical records by BCBSNC staff (where necessary), and external independent review (as needed).

BCBSNC uses several reference guidelines in developing its claims adjudication logic, including the American Medical Association's Current Procedural Terminology (CPT) manual, the CMS Correct Coding Initiative (CCI), Medicare (CMS) guidelines, and ClaimCheck™. These reference guidelines were developed for varying populations and benefit structures, and are not uniformly consistent with each other. In consultation with BCBSNC provider advisory groups, BCBSNC adopts the adjudication logic that represents the most commonly encountered clinical scenarios; and is most appropriate for BCBSNC benefit plans, contracts, and marketing demographics.

This policy does not apply to contractual reimbursement methodologies outside fee-for-service, such as bundled payment for episodic care or care management, or quality-based reimbursement.

### Principles

---

1. BCBSNC reimburses only for specific services or supplies rendered to specific members. General administrative/oversight services are not reimbursable under BCBSNC health benefit plans.

## Pricing and Adjudication Principles for Professional Providers

2. BCBSNC will reimburse a given service or supply once. A given service or supply may be split (e.g., technical and professional components), but if a global fee is charged by one provider, an additional component fee will not be reimbursed.
3. BCBSNC will use industry-standard claims adjudication logic/software to process claims, with implementation oversight by a cross-functional corporate level team.
4. Fee schedule pricing for the new services/products will be based on RVU's wherever possible, or other NC Medicare allowables/fees. Sources for RVU's will be Medicare, or other recognized source if Medicare does not assign RVU's for the specific code involved.
5. In general, BCBSNC does not allow a severity adjustment to fee allowances. For example, the use of modifier -22 will not affect claims processing adjudication.
6. BCBSNC will base payment for new technology (pending assignment of RVU's as above) on the outcome of the treatment rather than the "technology" involved in the procedure.
7. BCBSNC will develop a pricing methodology for new or previously unpriced services whenever possible, and apply the same methodology to all claims. The methodology will be communicated to all staff involved in making pricing determinations.
8. Because reimbursement depends on the specific product as a result of different benefit designs, claims adjudication methodology, medical policy, and provider contracts, creation or presence of a CPT code or HCPCS code in the respective manual does not guarantee reimbursement. Likewise, a fee in the provider fee schedule for a particular code does not guarantee reimbursement.
9. Unless the CPT book or other authoritative reference refers to a number of units of service or amount of time per service, BCBSNC assumes "one unit of service" basis for all CPT codes.
10. If, after the implementation of a software update, an edit or class of edits does not perform as expected, the edit or class of edits will be reviewed to determine if it is reasonable, appropriate, and complies with BCBSNC contracts, State law, or standard of practice in North Carolina, and appropriate action will be taken.
11. In the event of any overpayment, duplicate payment, or other payment by us in excess of the member's benefits payable according to the member's benefit plan ("Overpayment") and all Blue Cross NC policies, you shall promptly remit the overpayment to Blue Cross NC. In addition to other remedies, if within forty-five (45) days of a request for refund by us, the requested refund has not been made we may recover the overpayment amount by offset of future amounts payable to you. Neither Blue Cross NC nor you may initiate recovery of overpayments or underpayments, respectively, any later than twenty-four (24) months\* after the date of the original claim payment with the following exceptions:
  - a. Fraud, misrepresentation and other intentional misconduct,
  - b. Contractual requirements of self-funded groups,
  - c. Contractual requirements of certain Provider contracts,
  - d. Statutory or regulatory compliance,
  - e. Unsolicited or self-reported refunds.

\* The twenty-four (24) months time limit does not apply to Federal Employee Health Benefit Plan ("FEP") claims.

This policy applies to BCBSNC commercial business and Inter-Plan Programs. BCBSNC will require its outside vendors to adhere to BCBSNC's payment recovery policies and procedures.

## Policy Guidelines

---

BCBSNC may request medical records for determination of medical necessity. When medical records are requested, letters of support and/or explanation are often useful, but are not sufficient documentation unless all specific information needed to make a medical necessity determination is included.
